CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): February 27, 2023

ROCKET LAB USA, INC.

(Exact name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction
of Incorporation)

001-39560
(Commission File Number)

98-1550340
(IRS Employer
Identification No.)

3881 McGowen Street
Long Beach, California
(Address of Principal Executive Offices)

90808
(Zip Code)

Registrant's Telephone Number, Including Area Code: 714 465-5737

Not Applicable

(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- ☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	RKLB	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§ 230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§ 240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 2.02 Results of Operations and Financial Condition.

On February 28, 2023, Rocket Lab USA, Inc. (the “Company”) issued a press release announcing its financial results for the fourth quarter and year ended December 31, 2022. A copy of the press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The information in this Item 2.02, including Exhibit 99.1, is being furnished and shall not be deemed “filed” for purposes of Section 18 (the “Section”) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference into any registration statement or other filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(b) On February 27, 2023, David Cowan notified the Company, of his resignation as a member of the Company’s board of directors (the “Board”) and the Nominating and Corporate Governance Committee of the Board, effective March 14, 2023. Mr. Cowan’s resignation is not the result of any dispute or disagreement with the Company on any matter relating to the Company’s operations, policies or practices. The Company and the Board thank Mr. Cowan for his invaluable insights, perspective, and commitment during his service on the Company’s Board.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Rocket Lab Announces Fourth Quarter and Full Year 2022 Financial Results, Issues Guidance for the First Quarter 2023

2022 Highlights:

- Q4 2022 revenue of \$51.8 million, an increase of 88% year-over-year.
- Fiscal 2022 Revenue of \$211 million, representing full-year growth of 239%.
- Reached a new Company record of nine launches within a calendar year.
- Achieved a record of 100% mission success for Electron launches for the year.
- Successfully launched CAPSTONE mission to the Moon for NASA, including first demonstration of Lunar Photon spacecraft platform.

Long Beach, California. February 28, 2023 – Rocket Lab USA, Inc. (Nasdaq: RKLB) (“Rocket Lab” or “the Company”), a global leader in launch services and space systems, today shared the financial results for its fiscal fourth quarter and full year 2022, ended December 31, 2022.

Rocket Lab founder and CEO, Peter Beck, said: “Rocket Lab set new company records in 2022. It was our busiest launch year yet with nine Electron launches and 100% mission success. We also made significant progress on the development of Neutron with hardware in production, the launch pad and production complex sites selected and under construction, and an engine test stand at NASA Stennis already supporting the Archimedes test program. It was also a terrific year across space systems, with our strategy to become a full-service space company demonstrated with the successful CAPSTONE mission to the Moon for NASA featuring Rocket Lab developed launch vehicle and spacecraft, and further strengthened with the contract award to develop 17 spacecraft buses for MDA to support Globalstar’s new constellation.”

Fourth Quarter 2022 Business Highlights:

- Launched two successful Electron missions in the fourth quarter for General Atomics and the Swedish National Space Agency.
- Selected by NASA to launch the TROPICS (Time-Resolved Observations of Precipitation Structure and Storm Intensity with a Constellation of Smallsats) mission across two dedicated Electron launches to study hurricanes and tropical storms.
- Introduced the Rocket Lab Responsive Space Program to streamline launch on rapid timelines, delivering confidence and resilience to our customers.
- Completed an ocean recovery of Electron’s first stage, progressing the Company’s program to make Electron a reusable rocket.
- Officially opened the Archimedes engine test stand at NASA’s Stennis Space Center and commenced pre-burner ignitor testing, fast-tracking engine testing for the Neutron rocket.

rocketlabusa.com | media@rocketlabusa.com

MEDIA RELEASE

- Completed construction of the first Neutron Production Complex building at NASA Wallops, began production of carbon composite tank structures and commenced construction on the Neutron launch pad.
- Selected to deliver Satellite Operations Control Center for Globalstar Constellation, building on the \$143 million contract awarded in February 2022 to design and manufacture 17 spacecraft buses for Globalstar.
- Selected to build solar panels for NASA's CADRE mobile robot program.
- Delivered final solar panels for NASA Gateway's Power and Propulsion Element.

Business Highlights Since December 31, 2022:

- Successfully launched the Company's first mission from Launch Complex 2 at the Mid-Atlantic Regional Spaceport within NASA's Wallops Flight Facility in Virginia. The mission deployed three satellites for radio frequency geospatial analytics provider HawkEye 360. With the launch, all three of Rocket Lab's pads have now successfully launched Electron missions.
- Undertaking simultaneous launch campaigns across Launch Complex 1 in New Zealand and Launch Complex 2 in Virginia with two dedicated Electron missions planned to launch within days of each other in March from two continents.
- Bolstered the Company's existing line of proven satellite components with the introduction of two new high performance satellite components: a 12Nms reaction wheel designed for constellations and the Frontier-X software defined radio designed to provide high speed data for both near Earth and deep space small satellite missions.
- Formally established Rocket Lab Australia to explore opportunities in launch and space systems.
- Neutron launch vehicle in development now eligible to compete for National Space Security Launch Phase 3 missions – the U.S. Space Force's program intended to provide assured access to space for Department of Defense and other critical U.S. government payloads.

First Quarter 2023 Guidance

For the first quarter of 2023, Rocket Lab expects:

- Revenue between \$51 million and \$54 million.
- Launch Services revenue of approximately \$19 million.
- Space Systems revenue of between \$32 million to \$35 million.
- GAAP Gross Margins between -5% to -3%.
- Non-GAAP Gross Margins between 7% to 9%.
- GAAP Operating Expenses between \$44 million to \$46 million.
- Non-GAAP Operating Expenses between \$33 million to \$35 million.
- Expected Interest Expense (Income), net \$1 million.
- Adjusted EBITDA loss of \$28 million to \$30 million.
- Basic Shares Outstanding of 476 million.

See "Use of Non-GAAP Financial Measures" below for an explanation of our use of Non-GAAP financial measures, and the reconciliation of historical Non-GAAP measures to the comparable GAAP measures in the tables attached to this press release. We have not provided a reconciliation for the forward-looking Non-GAAP Gross Margin, Non-GAAP Operating Expenses or Adjusted EBITDA

rocketlabusa.com | media@rocketlabusa.com

MEDIA RELEASE

expectations for Q1 2023 described above because, without unreasonable efforts, we are unable to predict with reasonable certainty the amount and timing of adjustments that are used to calculate these non-GAAP financial measures, particularly related to stock-based compensation and its related tax effects. Stock-based compensation is currently expected to range from \$12 million to \$13 million in Q1 2023.

Rocket Lab also announces that David Cowan will complete his tenure on Rocket Lab's Board of Directors this quarter after nine years serving the company.

Rocket Lab would like to thank David for his leadership, guidance, and support as the Company grew from a small start-up to a NASDAQ-listed company and globally recognized leader in space.

Conference Call Information

Rocket Lab will host a conference call for investors at 1:30 p.m. PT (4:30 p.m. ET) today to discuss these business highlights and financial results for our fourth quarter, to provide our outlook for the rest of the year, and other updates.

The live webcast and a replay of the webcast will be available on Rocket Lab's Investor Relations website:

<https://investors.rocketlabusa.com/events-and-presentations/events>

About Rocket Lab

Founded in 2006, Rocket Lab is an end-to-end space company with an established track record of mission success. We deliver reliable launch services, satellite manufacture, spacecraft components, and on-orbit management solutions that make it faster, easier and more affordable to access space. Headquartered in Long Beach, California, Rocket Lab designs and manufactures the Electron small orbital launch vehicle and the Photon satellite platform and is developing the Neutron launch vehicle for large spacecraft and constellation deployment. From its first orbital launch in January 2018 to date, Rocket Lab's Electron launch vehicle has become the second most frequently launched U.S. rocket annually and has delivered 155 satellites to orbit for private and public sector organizations, enabling operations in national security, scientific research, space debris mitigation, Earth observation, climate monitoring, and communications. Rocket Lab's Photon spacecraft platform has been selected to support NASA missions to the Moon and Mars, as well as the first private commercial mission to Venus. Rocket Lab has three launch pads at two launch sites, including two launch pads at a private orbital launch site located in New Zealand and a third launch site in Virginia, USA. + Forward Looking Statements

This press release may contain certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, contained in this release, including statements regarding our expectations of financial results for the first quarter of 2023, strategy, future operations, future financial position, projected costs, prospects, plans and objectives of management, are forward-looking statements. Words such as, but not limited to, “anticipate,” “aim,” “believe,” “contemplate,” “continue,” “could,” “design,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “seek,” “should,” “suggest,” “strategy,” “target,” “will,” “would,” and similar expressions or phrases, or the negative of those expressions or phrases, are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements are based on Rocket Lab’s current expectations and beliefs concerning future developments and their potential effects. These forward-looking statements involve a number of risks, uncertainties (many of which are beyond Rocket Lab’s control), or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. Many factors could cause actual future events to differ materially from the forward-looking statements in this release, including risks related to delays and disruptions in expansion efforts; our dependence on a limited number of customers; the harsh and unpredictable environment of space in which our products operate which could adversely affect our launch vehicle and spacecraft; increased congestion from the proliferation of low Earth orbit constellations which could materially increase the risk of potential collision with space debris or another spacecraft and limit or impair our launch flexibility and/or access to our own orbital slots; increased competition in our industry due in part to rapid technological development and decreasing costs; technological change in our industry which we may not be able to keep up with or which may render our services uncompetitive; average selling price trends; failure of our launch vehicles, spacecraft and components to operate as intended either due to our error in design in production or through no fault of our own; launch schedule disruptions; supply chain disruptions, product delays or failures; the global COVID-19 pandemic; risks related to government restrictions and lock-downs in New Zealand and other countries in which we operate that could delay or suspend our operations; design and engineering flaws; launch failures; natural disasters and epidemics or pandemics; changes in governmental regulations including with respect to trade and export restrictions, or in the status of our regulatory approvals or applications; or other events that force us to cancel or reschedule launches, including customer contractual rescheduling and termination rights; risks that acquisitions may not be completed on the anticipated time frame or at all or do not achieve the anticipated benefits and results; and the other risks detailed from time to time in Rocket Lab’s filings with the Securities and Exchange Commission (the “SEC”), including under the heading “Risk Factors” in Rocket Lab’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021, which was filed with the SEC on March 24, 2022, and elsewhere (including that the impact of the COVID-19 pandemic may also exacerbate the risks discussed therein). There can be no assurance that the future developments affecting Rocket Lab will be those that we have anticipated. Except as required by law, Rocket Lab is not undertaking any obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

MEDIA RELEASE

+ Use of Non-GAAP Financial Measures

We supplement the reporting of our financial information determined under Generally Accepted Accounting Principles in the United States of America ("GAAP") with certain non-GAAP financial information. The non-GAAP financial information presented excludes certain significant items that may not be indicative of, or are unrelated to, results from our ongoing business operations. We believe that these non-GAAP measures provide investors with additional insight into the company's ongoing business performance. These non-GAAP measures should not be considered in isolation or as a substitute for the related GAAP measures, and other companies may define such measures differently. We encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. Reconciliation of the non-GAAP financial information to the corresponding GAAP measures for the historical periods disclosed are included at the end of the tables in this press release. We have not provided a reconciliation for forward-looking non GAAP financial measures because, without unreasonable efforts, we are unable to predict with reasonable certainty the amount and timing of adjustments that are used to calculate these non-GAAP financial measures, particularly related to stock based compensation and its related tax effects. The following definitions are provided:

+ Adjusted EBITDA

EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA further excludes items of income or loss that we characterize as unrepresentative of our ongoing operations. Such items are excluded from net income or loss to determine Adjusted EBITDA. Management believes this measure provides investors meaningful insight into results from ongoing operations.

+ Other Non-GAAP Financial Measures

Non-GAAP gross profit, research and development, net, selling, general and administrative, operating expenses, operating loss and total other income (expense), net, further excludes items of income or loss that we characterize as unrepresentative of our ongoing operations. Such items are excluded from the applicable GAAP financial measure. Management believes these non-GAAP measures provide investors meaningful insight into results from ongoing operations.
